## Notes

1. For DIP package change 'S' for 'D'. DIP details on request.
2. Add 'H' to model number for 3000VDC isolation.
3. Remote on/off option available. Add 'C' to part number
4. Dual outputs power-trade
5. Under no load conditions the unit may not meet all specifications—see minimum load in table
6. Do not operate continuously in the red area of derating curve
7. To match Traco Power's TMR add 'T' to dual output models

## EMC Filter

The following EMC filter may be used to assist in conducted EMC compliance. Please place the components as closely as possible to the FH DC-DC converter:

$$C1 = 100\mu F / 100V \text{ and } L = 12\mu H$$
