

## 2 Watts

- Single & Dual output
- SIP or DIP package
- Industry standard pin out
- Up to 6KV Isolation
- -40 to +85°C Operation
- High stock on popular models
- 3 Year warranty

The FG series of low cost DC/DC converters come in both single and dual outputs in either a SIP 7 pin or DIP 14 pin package. Inputs are available in 5, 12, & 24V versions and outputs from 3.3 to 24V single and dual. The units operate from -40 to +85°C. High volumes are held in stock for the popular models. All models have a Fidus 3 year warranty.

Dimensions:

SIP: 0.76 x 0.24 x 0.39" (19.5 x 6.0 x 10.00mm)  
DIP: 0.80 x 0.40 x 0.27" (20.32 x 10.16 x 6.88mm)

### Models & Ratings - Single output

| Model Number <sup>(2)(3)</sup> | Input <sup>(6)</sup> | Output voltage | Output Current | Efficiency |
|--------------------------------|----------------------|----------------|----------------|------------|
| FG0503S                        | 5V                   | 3.3V           | 400mA          | 72%        |
| FG0505S <sup>(1)</sup>         |                      | 5V             | 400mA          | 78%        |
| FG0509S                        |                      | 9V             | 222.2mA        | 80%        |
| FG0512S                        |                      | 12V            | 166.7mA        | 82%        |
| FG0515S                        |                      | 15V            | 133.3mA        | 82%        |
| FG0524S                        |                      | 24V            | 83.3mA         | 82%        |
| FG1203S                        | 12V                  | 3.3V           | 400mA          | 65%        |
| FG1205S                        |                      | 5V             | 400mA          | 77%        |
| FG1209S                        |                      | 9V             | 222.2mA        | 80%        |
| FG1212S <sup>(1)</sup>         |                      | 12V            | 166.7mA        | 82%        |
| FG1215S                        |                      | 15V            | 133.3mA        | 82%        |
| FG1224S                        |                      | 24V            | 83.3mA         | 80%        |
| FG2403S                        | 24V                  | 3.3V           | 400mA          | 72%        |
| FG2405S <sup>(1)</sup>         |                      | 5V             | 400mA          | 79%        |
| FG2409S                        |                      | 9V             | 222.2mA        | 80%        |
| FG2412S <sup>(1)</sup>         |                      | 12V            | 166.7mA        | 80%        |
| FG2415S                        |                      | 15V            | 133.3mA        | 82%        |
| FG2424S                        |                      | 24V            | 83.3mA         | 80%        |

### Models & Ratings - Dual output

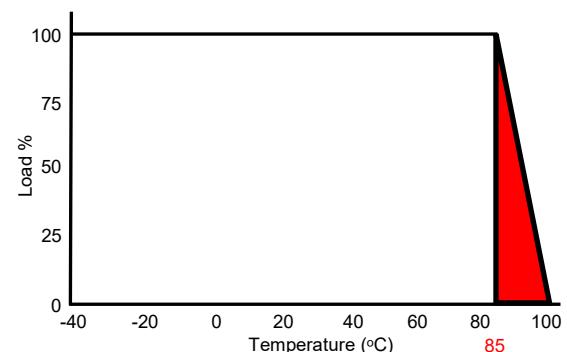

| Model Number <sup>(2)(3)</sup> | Input | Output voltage | Output Current <sup>(4)</sup> | Efficiency |
|--------------------------------|-------|----------------|-------------------------------|------------|
| FG0503SD                       | 5V    | ±3.3V          | ±200mA                        | 65%        |
| FG0505SD                       |       | ±5V            | ±200mA                        | 72%        |
| FG0509SD                       |       | ±9V            | ±111.1mA                      | 77%        |
| FG0512SD                       |       | ±12V           | ±83.3mA                       | 78%        |
| FG0515SD                       |       | ±15V           | ±66.67mA                      | 80%        |
| FG0524SD                       |       | ±24V           | ±41.67mA                      | 80%        |
| FG1203SD                       | 12V   | ±3.3V          | ±200mA                        | 67%        |
| FG1205SD                       |       | ±5V            | ±200mA                        | 75%        |
| FG1209SD                       |       | ±9V            | ±111.1mA                      | 77%        |
| FG1212SD                       |       | ±12V           | ±83.3mA                       | 82%        |
| FG1215SD                       |       | ±15V           | ±66.67mA                      | 82%        |
| FG1224SD                       |       | ±24V           | ±41.67mA                      | 82%        |
| FG2403SD                       | 24V   | ±3.3V          | ±200mA                        | 68%        |
| FG2405SD                       |       | ±5V            | ±200mA                        | 75%        |
| FG2409SD                       |       | ±9V            | ±111.1mA                      | 80%        |
| FG2412SD                       |       | ±12V           | ±83.3mA                       | 82%        |
| FG2415SD                       |       | ±15V           | ±66.67mA                      | 82%        |
| FG2424SD                       |       | ±24V           | ±41.67mA                      | 82%        |

#### Notes

1. High stock items
2. For DIP package change 'S' for 'D'.
3. Add 'H' to model number for 3000VDC isolation. H6 for 6KV.
4. Dual outputs power-trade
5. Under no load conditions the unit may not meet all specifications
6. 3.3V input models available on request. Please contact Sales.
7. Do not operate continuously in the red area of derating curve
