

# FIDUS POWER

## CORPORATE SOCIAL RESPONSIBILITY

### FAMILY

We strive to make sure that we provide our working mums with the necessary training and coaching to excel in their roles. We ensure that mums and dads are able to attend to family matters as a priority over work demands.

We provide flexible working as we understand how important the work/life balance is when juggling family and work commitments.

### SUSTAINABILITY

What is sustainability?

“Development that meets the needs of the present generation without compromising the ability of future generations to meet their own needs.”

Our goal is to become the leader in environmental performance within the power converter industry. We aim to offer the most sustainable power converter products in our industry.

By	Increased Product Life =	Reduced Recyclability
	Reduced Material Consumption =	Less energy/materials in components.
	Increased Power Efficiency =	Cut the amount of energy used in operations of our power conversion devises by reducing heat waste power.

### OUR MISSION

“CLIMATE CHANGE MATTERS”
