

## Modern Slavery Statement

FiDUS Power and its Supply Chain, have set plans of actions to monitor, report and reduce the risks of slavery in accordance with the Modern Slavery Act 2015. FiDUS Power and our partners recognise that eradicating slavery, human trafficking, servitude and forced labour (“modern slavery”) presents a global challenge for all governments and businesses. We recognise our responsibility to be aware of the risks of modern slavery within our business and our supply chain and do our utmost to contribute to its eradication wherever we have the opportunity to.

To achieve this common goal we:

- Communicate outwardly that we, as an organisation, do not tolerate or engage with partners, suppliers or contractors that infringe the Modern Slavery Act.
- We and our associates perform due diligence with other corresponding partners and suppliers, ensuring slavery is not tolerated and any evidence of such would result in disengagement.
- Any abuse of human rights would be acted upon immediately and appropriate action taken.
